

A Source-wide rank survives joint inference

1,000 component bootstraps; max-t 95% CI

Source — ChEMBL37 — BioLiP/MOAD

**B** Rank varies by source and shift**C****Point accuracy is not consistent**

Negative favors model; dependence-envelope 95% CI

Stratum — Overall — Target cold — Double cold

**D****Model specifications form two families**

Shared HGB lineage versus one frozen comparator
